

# URETHANE INNOVATORS, INC.

## URETHANE ROLLERS & CUSTOM MOLDED PARTS

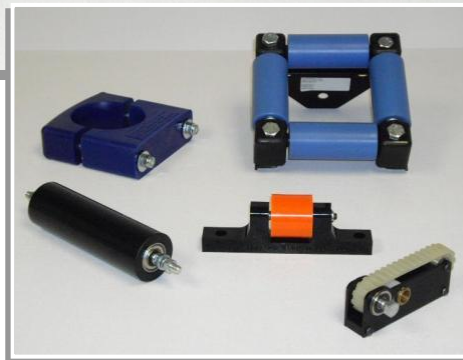

Urethane Innovators, Inc. is a premier manufacturer of high performance thermoset urethanes. Our capabilities range from custom molded urethane, rubber & silicone parts to complete assemblies in proprietary industry specific applications. We also offer a custom thermoforming made to your specifications or by using your mold design.

Founded in 1977, UI is an all inclusive manufacturing facility we have a complete machine shop offering mold making, insert & core machining and finish grinding capabilities. Our automated machine shop and automatic casting machines allow us process & control of all operations providing high performance quality products at competitive prices, making us a one stop for your complete molded products.

UI offers you a competitive advantage to meet your requirements from concept to production from small to large production runs.

- Urethane To Metal Bonding
- Covered Bearings
- Compression Molding
- Assembly of Components
- Roll Recovering
- Core & Covering
- Mold Making In-House
- Machining of Inserts and Components

***An Imaginative and Service Oriented Company  
Dedicated to Fulfilling Your Needs***

Large Production Wheels  
supplied complete  
Core, Covering & Bearing

Urethane Covered Rollers

Dual Durometer Capabilities  
&  
Urethane Bonded to Nylon

403 Industrial Drive, New Bern, North Carolina 28562  
Phone: 800-545-2630 Direct: 252-637-7110 Fax: 252-637-2077

## Products & Services

- Silicone Gaskets & Seals
- Thermoforming
- Urethane Assembly & Dunnage Fixtures
- Precision Machining
- Engineering of Urethane Products
- Covered Rollers & Wheels
- Machining of Urethanes & Plastics Materials
- MDI & TDI Compounds
- FDA Materials
- ISO 9000-2008 Certified

## Roller Recovering

*Precision machining with conventional & CNC process, dedicated to close tolerance finish grinding and manufacturing of tooling and molds, plus fabrication of machined plastic materials.*
